NO RUNNING COSTS

The DINGO* range of pumps are a new hybrid type of ram which has many advantages over other kinds of water pumps. They need no oil, petrol, diesel or electricity because they are water powered.

CONSTANT DELIVERY

Pumps constantly, delivering between 675 - 17500 litres every 24 hours with no running costs.

LOW OPERATING FALL

Starts working on a fall or drop of less than 1 metre. Of course the more fall the better the results.

NEEDS LESS WATER

Requires less water than any other commercially available water powered pump. Needing less than 3 litres per minute flow to start pumping.

GOOD DELIVERY HEAD

All DINGO* pumps will lift water in excess of 5 times their operating fall.

FULLY ADJUSTABLE

Will operate on falls of between .5 - 10 metres and may be tuned for optimum performance or de-tuned to suit water source.

LOW MAINTENANCE

Made from robust, corrosion free, food grade polyethurlene, with relpacible brass bushing and marine grade stainless steel plunger and springs. Removable poppet o-ring seals and air tank diaphragm make this pump totaly servicable.

VERY VERSATILE

Runs off dams, creeks, rivers, springs, free flowing artesian bores or even on a gravity feed line away from your water source. May be land based or completely submerged to increase performance or maintain complete stealth operation.

RELIABLE AND QUIET

Will run day after day, week after week, with no noise, no cost and no problems.

EASY TO INSTALL

No need for straight or set lenght drive pipes. No need for elbows or glues. Simply run a poly pipe from your water sourse downhill untill the required fall is obtained.

BUILT TO LAST

Being corrosion free, having few moving parts, with replacible rubber diaphragm and valve o-ring seals, all DINGO* pumps Will definately last for years.

GUARANTEED

When installed and tuned by a qualified service agent, DINGO* pumps come with a 5 year parts and labour warranty and are guaranteed to perform to the manufacturers specifications.

AUSTRALIAN OWNED

These pumps are proudly designed and manufactured in Australia from 100% Australian content and are totaly safe for sensitive environments.
